
Supplementary Fig. 14. Gene expression heatmap and random enrichment score (ES) distribution of gene set enrichment analysis pathways of upregulated genes (A) Gene expression heatmap of "positive regulation of osteoblast differentiation (GO:0045669)." (B) Random ES distribution of "positive regulation of osteoblast differentiation (GO:0045669)." (C) Gene expression heatmap of "retinol metabolism (RNO00830)." (D) Random ES distribution of "retinol metabolism (RNO00830)."
